

➔ REGULATIONS ARE CHANGING!

➔ NEW PACKAGING MATERIALS ARE NOW AVAILABLE TO MARKET

PACK DESIGN DAY EDUCATIONAL SEMINAR

Specialized workshops to review regulatory trends & technical challenges for packaging design & qualification

Book your day!

CHOOSE THE FORMAT TAILOR MADE TO YOUR NEED

- 1 INPRIVATE:** Your own event, over 1 day, in the location of your choice
Organize a packaging review in your premises, for members of your staff only, associating quality control, regulatory affairs, packaging design, production & purchase departments.
- 2 ONSITE:** Get a better understanding of how things are made directly in manufacturing premises of sterile packaging materials
The « Advanced » version of the Pack Design Days, joining peers of other medical device companies for a one day review of sterile packaging requirements, grouped with onsite visit of lab facilities, R&D department & porous web industrial manufacturing tools.

The event is reserved to medical device manufacturing companies and is free of charge.

NEXT EVENTS 2018
